UNPLEASANT FEELING

OVER KUROPATKIN'S DISMISSAL.

He Succeeded to a Legacy of Folly and Struggled Amidst Adverse Circumstances.

London, March 18.—The dismissal of General Kuropatkin leaves an unpleasant impression in military circles. The initial reverses to Russian arms sent Kuropatkin hurrying to the front and his advent was heralded as the magic touchstone which was to convert defeat into victory and to achieve other equally impossible exploits. On his arrival, he found chaos everywhere. Military forces committed to the defence of far separated bases, with no strategic centre and with the campaign of the future mortgaged by the necessities of Port Arthur. Until it fell, Russia's Gibraltar, was a millstone around the neck of her commanders and falling, it bore them to destruction with it, equally, on the Hun river, as at 303 Metre. Alexieff, too, brooded an evil genius, and his final retirement at St. Petersburg only precipitated the crowning folly of the advance on the Stakhe. In the face of all these adverse influences Kuropatkin succeeded with marvellous adroitness in extricating his armies, until the terrible hour at Mukden when he heard the guns of the enemy booming in his rear. Then his good fortune, and his better judgment seem to have forsaken him, for instead of applying all his unquestioned abilities of organization to the instant business of retreat he appears to have delegated this duty to a subordinate and to have placed himself at the head of his rear guard in a vain but glorious attempt to stem the tide of victory. But it would seem as if this grey-headed troops, discouraged by successive reverses and disheartened by dissensions at home, failed him. History will still call him a great soldier. General Lihevitch is not to be envied. He has proved himself a reliable division commander, but that is far removed from the task now confronting him.

IRISHMEN DINE

IN HONOR OF ST. PATRICK.

Happy Gathering of the Sons of Erin at the Criterion Last Evening—An Irish Bill of Fare.

About fifty happy Irishmen and ladies sat down to the dinner table at the Criterion Restaurant, last evening to again do honor to the national holiday of the land of their birth. After a dinner comprising the gamut of Irish dishes, toasts were given and responded to interspersed with music. This being the first event of its kind on any St. Patrick's day in Edmonton, all the sons of old Erin who live here naturally were feeling in the proper mood in which to fittingly celebrate this great day in Irish life. Many were the jests and happy quips that were bandied about among these light-hearted people amid laughter and applause.

The following is the menu, which was certainly Irish enough to suit the most critical:

SOUP.
Faugh-a-Ballagh Broth.
Galway Bay Oyster.
FISH.
Lough Salles. Bann Salmon.
Belts of Shandala Sauce.
ENTREES.
Irish Stew. Pickled Shillelagh.
Suilors from Connemara.
ROAST.
Roast Beef of Old England—Imported from Ireland, Shamrock Gar-nishing.
Limerick Pork, Maple Leaf Dressing.
VEGETABLES.
Mushrooms—with their jackets on.
Bog-Bine—a la Donegal.
DESSERT.
Blackthorn Pie.
Slices.
Sowans Carrigen Moss Flummery.
WINES.
Finnishoven Mountain Dew.
Saskatchewan Pure.
Bottled Killarney.
Green Tey.

After the eating came the toasting, which was very pleasantly accomplished under the able direction of the toast-master, Mr. Thos. Irvine. Below is the list interspersed with the music rendered:

THE KING.
Air. God Save the King.
Solo. Irish Slumber Song.
"Canada, The Land of Our Adoption."
Response.—Mr. D. McAlen.
Violin Solo. Mr. Hart.
"Ireland: The Land of Our Birth."
Response.—Mr. Sloan.
Solo. "The Harp That Once..."

PARLIAMENT

Ottawa, March 9th, 1905.

The Crisis Still on.

The Cabinet difficulty which became public by the resignation of the Minister of Interior on March 1st, is still acute. There have since been a number of Cabinet meetings. There has been an Ontario caucus, a Quebec caucus, a Western caucus and a Nova Scotia caucus. Everybody expresses the utmost desire to reach an amicable solution of the difficulties which have been disclosed, but so far the solution has not been reached.

The B.N.A. Act Governs

At first look the wonder would seem to be that there is or has been any difficulty. The new provinces are being constituted under the authority of the British North America Act. Owing to conditions prevailing in the two great provinces of Canada at the time of the passing of this Act, to provide against the difficulties arising out of those conditions and to prevent like difficulties in provinces which it was then expected would ultimately be added to the Dominion, as these provinces are now, provision was made for the protection of the educational rights of the religious minority, both in the old province and the new. Section 93 of the British North America Act is very explicit in declaring that the separate school rights existing at the entry of the provinces into confederation must be maintained; and that if those rights be infringed upon by the Government of the province the duty rests upon the Government of the Dominion to remedy the wrong. The rights of every province, whether organized or to be organized, are subject to these conditions of confederation. These conditions may be declared, explained, confirmed or amplified by Dominion Legislation on entry of a province into the Dominion; but their force and effect cannot be decreased or abrogated by anything short of Imperial authority.

Policy of Parliament in 1875

When local government was provided for the North West in 1875, it was unanimously decided by Parliament as a matter of policy to permit the establishment of separate schools there. The North West has had a school law in operation under the provision of the act of 75 for the past twenty years in which provision is made for the protection of the educational interests of the religious minority, whether Protestant or Catholic, resident.

Policy of 1875 Unchangeable Until 1905

Until now the will of Parliament as expressed in section 14 of the North West Territories Act, was and is the final authority on the question of minority schools in the Territories. The principle embodied has never been challenged in Parliament during those twenty years, nor has it been questioned by the legislature of the North West in giving effect to its provisions by their various educational ordinances.

No Objection from North-West Government

When the North West Government in 1901, prepared a Draft Bill for the organization of the Territories into provinces they embodied their views as to what was and what should be. In the Bill it is set forth with fullest detail, that the laws of the Territories then existing should continue until amended by the proper authority.

No Objection from any Section

The Dominion Government in providing for provincial organization of the Territories had hitherto on the one hand had the unanimous will of the Parliament of 1875 in providing for minority schools in the Territories and the record of twenty years of Parliament itself and of the Legislature of the Territories without an objection on the record to the principle or to the manner in which it was given effect; and besides had the definite word of the Government of the Territories as to the continuance of then existing conditions.

Subject to the Constitution.

On the other hand they had the British North America Act carefully framed with a definite view to the contingencies arising on the admission of the Territories as provinces of the Dominion, confirming by the highest authority of the Empire the conditions found to be existing in the Territories at the time of the admission into the Union.

Minority Rights Guaranteed by the Constitution.

These being the circumstances, the Government had no choice in framing the Autonomy Bill, but to frame it subject to the provisions of the British North America Act and in accordance with the existing laws of Parliament and of the Territories. So far all was plain sailing, but so farther. On behalf of the Roman Catholic minority the contention was made that the maintenance of existing conditions involved a guarantee of the continuance of Local Government support in aid of schools, which was not provided for in the Dominion Legislation of 1875, although always conceded by the legislation of the North West Assembly. They claimed that the right to share the Government grants as now apportioned, and as contemplated by the British North America Act, should be guaranteed by the new Legislation as it had not been in the Legislation of 1875. At that time, there being no local Government funds available, as well as there being no schools in existence, the question of grants had not arisen and therefor had not been dealt with.

Provincial Rights | the Constitution itself.

The contention on the part of the Roman Catholic minority that their schools were entitled to share the Government grants as generally conceded, but the difficulty arose when the attempt was made, to frame a clause that would at once give a permanent guarantee of proportionate state aid to separate schools and at the same time leave with the Provincial Government the elementary right of the province to distribute provincial money as to the majority of the Legislature should see fit.

Misunderstanding through Delay in Printing.

Sub-section 3 of section 16 of the Bill is framed with the intention of meeting the case above set forth on behalf of the separate schools; but a careful reading will show that it does not leave the hands of the Provincial Legislature the right of disposing of provincial moneys as the Legislature may see fit. The Bill was not printed at the time of its introduction and was not available for general consideration and discussion until a full week after it had been introduced. It was therefore, only when it appeared in print that the objection was clearly noted and the discussion with a view to harmonizing the necessarily opposite positions began to take place.

There must be Concession if there is to be Conciliation.

While both parties to the argument have always expressed themselves as absolutely willing to concede the contentions of the other, up to the present time neither have found a form of words in which the views of both can be expressed. There are, of course, elements on both sides who do not want conciliation, who see possibilities of their own aggrandizement in a failure to reach a satisfactory solution of the difficulty, but there is no doubt that the large majority of the people holding the opposing views are altogether anxious to have a satisfactory solution arrived at, but there can be no solution that will not retain from the provinces their elementary right to the full say in the distribution of their own money.

Provincial Rights cannot be Abrogated.

It is not and never was the intent of the Government to grasp on this right and no matter what Parliament as it stands to-day might say it would be fully for any government to do so; first, for the reason that it would be a violation of the first principles of the British system of government as expressed in the same British North America Act, and therefore could not be maintained in law; and second, because it could not and would not be approved by the electors at the polls.

A Serious Situation.

Everyone recognizes the gravity of the occasion and the disastrous results that must follow, especially to the West, if the policy of development now in progress should be checked by political animosities or changes of government. At the same time the basic principles upon which confederation rests must be maintained at all costs. One of these is consideration of the educational rights of the religious minority; and the other is the absolute right of the provinces to the exclusive management of their financial affairs.

Prospects of Settlement—but Nothing More.

To-day the prospects for the harmonizing of the opposing views are somewhat improved, but there is as yet no definite announcement, and after all, the prospects may not be realized.

MR. MORSE COMING.

LEFT VICTORIA YESTERDAY.

G.T.P. Want a Grant of Land from British Columbia if they Build from the Coast East.

Victoria, March 18.—Vice President Morse, of the G. T. P., left here tonight for Montreal. He will also go to Edmonton on the way and reach Montreal about April 1st. Mr. Morse submitted to the provincial government a proposal to give a land subsidy for beginning work on the Pacific Coast. Premier McBride will not agree to this and in consequence Mr. Morse says emphatically work on the B. C. section will be from the east to the Pacific. He says he expects to reach the Pacific on schedule time, 1911. The feeling prevails among the legislators here that the aid given the company by the Dominion is sufficient and the Government therefore refused the grant of land. Whether the province will look at it differently when it is found that the company is determined not to begin at the coast remains to be seen.

Strathcona Chronicle:—Those who are in the habit of belittling advertising schemes of various kinds on account of their cost will be interested to learn that on Sunday and Monday there arrived from the Indian Territory of the United States Messrs. F. Archer and family, Geo. Summers and family, Burk Davis and family, J. Matney and family, J. A. Sider and family, F. Davis, E. Thunderburg, J. Grain, and Lewis Dudel, with their effects, including farm machinery, vehicles of various kinds, household furniture, horses and cattle. Other families are to follow, some of which are expected to arrive to-morrow. This influx of immigration to this locality is all due to the exhibits sent from this district by Edmonton in charge of Mr. J. L. Porte, of Strathcona.

He proposed that the Irish of Edmonton and Alberta should form a permanent organization for the purpose of helping indigent and worthy Irishmen, who come to this country, to get a start. This met with the hearty approval of all present, and, doubtless, before another St. Patrick's day comes around such an organization will have been formed.

GOOD AGENTS FOR THE
Oliver Typewriter

IN ALL

UNOCCUPIED TERRITORY

Over 100,000 of these machines have been sold in the U.S. within the last few years at the same price which is being charged for any other standard typewriter. This proves conclusively that the OLIVER is the very best machine made regardless of price.

As there is now in Montreal a factory devoted exclusively to the manufacture of this machine, it can be bought in Canada for the same price at which it is sold in the U.S. without adding from \$25 to \$30 to cover duty and charges, as do all the other standard writers.

This should be a very attractive proposition to any purchaser of writing machines.

LILGIE CONFESSES.

TO HAVING STOLEN PROPERTY.

Evidence of one of the Men held in the Brudenheim Murder Case.

Ed. Saskatchewan, March 17.—The trial of G. W. E. Hohme and L. Lilgie on the charge of murdering the late W. F. Leslie and afterwards setting the house on fire, was commenced on Wednesday before Inspector Worley, J.P., in the Oddfellows Hall.

The charge against Hohme was proceeded with first, the only witness produced being Lilgie, who accused Hohme of being the actual murderer, claiming that he himself was only an accessory after the deed.

Lilgie, sworn, said: I was in Leslie's store about 11.30, saw Leslie's dead body. I was hunting horses. Bidding was not on fire then. Saw Hohme about half-way between corner and store. I asked him where he came from. He had a parcel under his left arm and a revolver in his right hand. He said "I have just filled in the orders that I gave you to do." He had talked to me about getting Leslie out of his way. He was in his road. This was in Hohme's store about two weeks before in the day time, when I went after my mail. He asked me if I wanted to get a job. I said "Yes," and he said, "I want you to get Leslie out of my way." I said, "You mean to say that I am to go down there and murder him?" He said "Of course, how else could you get him out of my way." I said, "I am going down to the Fort to report you. He pulled a revolver and said, 'If you don't keep quiet I will shoot you.' I said that I guessed I would have to keep quiet. In the two weeks following I was there once or more for my mail. Once he said, 'Did you think over that matter, whether you are going to do it or not.' I said 'No; I am not.' After meeting Hohme I went back towards my home about a quarter of a mile. I then returned to the store. The door was shut, but not locked. I saw Leslie's dead body lying between the counter and door. His head was in the corner. I did not examine the body but I thought that I noticed some blood on his breast. I thought he was shot because I saw Hohme coming from there with the revolver, but I heard no shot. Leslie seemed quite dead. I took two gold watches also over \$100 paper money and some silver which I found in the shelves in an envelope behind some bottles of painkiller. I also took some underwear. I took a silver watch from the left-hand counter. I had a gold chain. I put these in two sacks and started home. I dropped one on the road about three quarters of a mile from home. I then went back and got it. Then I got scared and was going to take the whole thing back. I started with both bags and got about a quarter of a mile, when I saw the store was on fire. Then I went back home again. I put part of the things in a pile of sawdust and part in some hay. 30 or 40 yards from my house.

The silver watch I took next morning. The night before I took the chain but left the watch because I thought it was not any good. Next morning I went to the fire at 7 a.m. but did not see Mrs. Nix or Grams. The silver watch was on the ground where the counter had stood. The ring was melted off and a piece of the side. It was in three pieces. I took it because if they found no watch there, they would think he was murdered, and I wanted the authorities to find out. I had the pieces in my pocket for a couple of days or a week. I threw the watch into the boiler of the engine the day I was arrested. I threw the chain in the tank. I did not want them to find them on me. Hohme was 15 yards from Leslie's house when I met him. I did not see him come out of the door. I was moonlight, but cloudy. It was a cold night. Hohme and I never had any trouble, but we were not chums. I did not touch Leslie's body and can't say whether he had his boots on or not. The spot of blood was in the middle of the breast. I took the bottles of painkiller and found the money behind them. The gold watches were hanging on the shelves. The next morning I saw a butcher knife in front of the shop on the ground.

Alec Pennycook, sworn, said: I executed the search warrant on Hohme's place, and found nothing mentioned in the warrant.

The trial was concluded this afternoon and the accused sent up for trial at the next sitting of the Supreme Court in Edmonton.

THE SASKATCHEWAN BRIDGE CO.

The current issue of the Canadian Gazette contains the following article:

Notice is hereby given that an application will be made to the Parliament of Canada, at its present session, for an Act to incorporate The Saskatchewan Bridge Company, to construct, maintain and use a bridge for railway and other purposes across the Saskatchewan river from a point at or near Strathcona to a point on the opposite side of said river at or near Edmonton, with all the necessary approaches and all tracks, machinery and appliances required to enable any railway companies whose lines shall connect therewith to use the said bridge, to lay tracks on the said bridge for passage of locomotive engines and railway trains; to construct or arrange the said bridge for the use of foot passengers and vehicles, to purchase, acquire and hold such real estate, including lands for terminals, sidings and other such like accommodation as may be required for the convenient working of the traffic to and over the said bridge; to fix and regulate, from time to time, the tolls and rates to be charged to all persons and companies using same; to borrow money from time to time and to issue bonds, debentures or other securities in respect of the said bridge and its approaches and appliances; and to have in respect of the said bridge such other powers as are usual and necessary for undertakings of a similar character, and to declare the works of the company to be for the general advantage of Canada.

BARR COLONY CEMETERY.

The Canada Gazette contains the following notice: The Governor General is pleased, in virtue of the provisions of section 31 of the Dominion Lands Act, to order that the north-east quarter of Legal Subdivision 16 of Section 36, in Township 47, Range 25 west of the 3rd Meridian containing an area of 16 acres, shall be and the same is hereby set apart and appropriated for the purposes of a cemetery for the use of the settlers of the Barr Colony, but to be used for no other purpose whatsoever.

SUCCESSFUL PEDRO PARTY.

The Pedro party, in Robertson Hall last evening in aid of St. Joachim's church, was very successful, guests being present to occupy 24 tables. Mrs. McEay won the ladies prize and Miss Laroque the ladies' booty. Mr. Duhamel won the gentlemen's prize. Two special prizes were offered for the winner of the highest number of games during the season. Mrs. and Miss Gargery tied for one prize and Mr. John O'Sullivan won the other. A musical program consisting of Irish melodies and instrumental selections was also rendered.

FEBRUARY WEATHER.

The Boh Accord weather report shows the coldest day during February to have been the 17th, when -34.5 was reached. The highest temperature recorded was 53.2 on the 27th. The mean maximum was 24.4 and the mean minimum was -6.2. The mean average was 21.2. During the month there were light falls of rain and hail.

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the North-West Territories and the Yukon Territory.

Coal.—Coal lands may be purchased at \$10 per acre for soft and \$20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty, at the rate of 10 cents per ton of 2000 pounds shall be collected on the gross output.

Quartz.—Persons of eighteen years and over and joint stock companies holding "miners' certificates" may obtain entry for mining location.

A free miner's certificate is granted for one or more years, not exceeding five, upon payment in advance of \$7.50 per annum for an individual, and from \$50 to \$100 per annum for a company, according to capital.

A free miner, having discovered mineral in place, may locate a claim 1,500 by 1,500 feet by marking out the same with two legal posts bearing location notices, one at each end of the line of the lode or vein.

The claim may be recorded within fifteen days if located within ten miles of a mining recorders office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is \$5.00.

At least \$100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When \$500 has been expended or paid the locator may, upon having a survey made, and upon complying with other requirements purchase the land at \$1.00 per acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 160 acres. The patent for a mining location shall provide for the payment of royalty on the sales not exceeding five per cent.

Placer Mining, Manitoba and the N. W. T., excepting the Yukon Territory.—Placer mining claims are generally 100 feet square, entry fee \$5.00, renewable yearly. On the North Saskatchewan river claims for either bar or beach, the former being 100 feet long, and extending between high and low water mark. The latter includes bar diggings but extends back to the base of the hill or bank but not exceeding 1,000 feet. Where steam power is used, claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N. W. T., excepting the Yukon Territory.—A free miner may obtain only two leases of five miles each, for a term of twenty years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged bed or bars of the river below low water mark, and subject to the rights of all persons who have or who may receive entries for bar diggings on bench claims, except in the Saskatchewan river, where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease, one dredge for each fifteen miles or fraction, will be sufficient. Rental \$10 per annum for each mile of the river leased. Royalty at the rate of two and a half per cent, collected on the output after it exceeds \$10,000.

Dredging in the Yukon Territory.—Leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by its position on the first day of August, in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental \$100 per mile for first year, and \$10 per mile for each subsequent year. Royalty same as placer mining.

Placer Mining in the Yukon Territory.—Creek, gulch, river and hill claims shall not exceed 350 feet in length measured on the base line or general direction of the creek or gulch, the width being from 1,000 to 2,000 feet. All other placer claims shall be 200 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days. If the claim is within ten miles of a mining recorder's office, one extra day allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1,000 feet in length, and if the party consists of two, 1,500 feet altogether, on the output of which no royalty shall be charged, the rest of the party ordinary claims only.

Entry fee, \$10. Royalty at the rate of two and one-half per cent, on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold a number of claims by purchase, and free miners may work their claims in partnership by filing notices and paying fee of \$2.00. A claim may be abandoned and another obtained on the same creek, gulch or river by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least \$200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made, and publishing notice in the Yukon Official Gazette.

Hydraulic Mining, Yukon Territory.—Locations suitable for hydraulic mining, having a frontage of from one to five miles, and a depth of one mile or more, may be leased for twenty years, provided the ground has been prospectured by the applicant or his agent; is found to be unsuitable for placer mining, and does not include within its boundaries any mining claims already granted.

A rental of \$150 for each mile of frontage and royalty at the rate of two and one-half per cent, of the value of the gold shipped from the Territory are charged. Operations must be commenced within one year from the date of the lease, and not less than \$1,000 must be expended annually. The lease includes all base metals, quartz and coal, and provides for the withdrawal of unopened land for agricultural and building purposes.

Petroleum.—All unappropriated Dominion lands in Manitoba, the North-West Territories and within the Yukon Territory, are open to prospecting for petroleum, and the Minister may reserve for an individual or company having machinery on the land to be prospectured, an area of 640 acres. Should the prospectors discover oil in paying quantities, and satisfactorily establish such discovery an area not exceeding 640 acres, including the oil well and such other land as may be determined, will be sold to the discoverer at the rate of \$1.00 an acre, subject to royalty at such rate as may be specified by order-in-council.

THE planters from whom I buy my tobacco in Cuba are the most expert tobacco growers in the world. They keep the plant nipped back carefully—free from suckers and only leaves enough on the plant for it to properly mature and nourish.

In this way the good of the tobacco—the proper qualities to make it excellent smoking, are evenly distributed all through the plant. Thus the leaf I secure for my Pharaoh filler is perfect—an even smoker—palatable and delicately odoriferous.

SCHOOL CONCERT AT
GLORY HILLS.

Glory Hills, March 17.—The school house was fairly well filled on the evening of Monday, March 13th, on the occasion of the first concert given by the pupils of the Glory Hills school. A collection was taken in aid of the library. The pupils acted their parts well, especially considering that for all of them it was their first appearance in public.

PROGRAM.

Song by the school "The Maple Tree."
Dialogue, by three girls.
Song, "Rain, rain, do not go."
Recitation, by Adam Giebelhaus.
Skating Song, by three boys.
Dialogue, by two boys.
Song, "Seven Times One," by the girls.
Recitation, by Katie Spady.
Morning Song, by seniors.
Recitation, by Henry Giebelhaus.
Song, "Watch the Snowflakes."
Dialogue, "Chicken Little."
Song, "The Maple Leaf."
Recitation, by Adam Yost.
Song, "Twenty Frogs."
Song, "Song of the Trees."
Dialogue, "The Schoolmaster Abroad."
Song, "Bye Land."

During the intermission the chairman, Mr. Israel Umbach called on several of the gentlemen present for short speeches. The boys also stepped to the front, and, with cookies in their hands, sang a local parody, "The Glory Hill girls baked a hundred thousand cakes," and while the boys were eating the girls changed the song to "The Glory Hill boys ate a hundred thousand cakes," while the boys marched to the chorus "Glory, Glory, Hallelujah, etc." The program was then resumed.

Recitation "A Puzzled Dutchman."
Song "With Hearts so Light."
Song, "Haste, Schoolmates, Haste."

The Canadian Northwest
Homestead Regulations

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, of 160 acres, more or less.

ENTRY.—Entry may be made personally in the district in which the land to be taken is situated, or, if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situated, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Land Act and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) or any person who is eligible to make a homestead entry under the conditions of the Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent, may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, he a certificate for the issue of such patent countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3, or 4, must cultivate 30 acres of his homestead, or substitute 20 head of stock, with building for their accommodation, and must enclose 80 acres substantially fenced.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads, to entitle them to patent on or before the 2nd June, 1880.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry. Application for patent should be made at the end of three years before the local agent, sub-agent, or Homestead Inspector. Before making application for patent, the settler must give six months' notice in writing to the Commissioner of Dominion Lands, at Ottawa, of his intention to do so.

Information.—Newly arrived immigrants will receive at the Immigration Office, in Winnipeg, or at any Dominion Land Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing lands to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands, in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Land Agents in Manitoba or the Northwest Territories.

W. W. CORY.

Deputy Minister of the Interior.

N. B.—In addition to Free Grant Lands to which the regulations above stated refer, thousands of acres of most desirable land are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

We Will Buy

A 50c. Bottle of Liquezone and Give it to You to Try.

We want you to know about Liquezone, and the product itself can tell you more than we. So we ask you to let us buy a bottle—a full-size bottle—to try. Let it prove that it does what medicine cannot do. See what a tonic it is. Learn that it does kill germs. Then you will use it always, as we do, and as millions of others do.

This offer itself should convince you that Liquezone does as we claim. We would certainly not buy a bottle and give it to you if there was any doubt of results. You want those results; you want to be well and to keep well. And you can't do that—nobody can—without Liquezone.

We Paid \$100,000

For the American rights to Liquezone. We did this after testing the product for two years, through physicians and hospitals, after proving, in thousands of different cases, that Liquezone destroys the cause of any germ disease.

Liquezone has, for more than 20 years, been the constant subject of scientific and chemical research. It is not made by compounding drugs, nor with alcohol. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you.

Its effects are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill. The reason is that germs are vegetables; and Liquezone—like an excess of oxygen—is deadly to vegetable matter.

There lies the great value of Liquezone. It is the only way known to kill germs in the body without killing the tissue, too. Any drug that kills germs is a poison, and it cannot be taken internally. Every physician knows that medicine is almost helpless in any germ disease.

Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquezone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

50c. Bottle Free.

If you need Liquezone, and have never tried it, please send us this coupon. We will then mail you an order on a local druggist for a full-size bottle, and we will pay the druggist ourselves for it. This is our free gift, made to convince you; to show you what Liquezone is, and what it can do. In justice to yourself, please, accept it to-day, for it places you under no obligation whatever.

Liquezone costs 50c. and \$1.

Immigration Officer:—C. W. Sutter.

Educational Institutions:—Public and separate schools, high school, Alberta College.

CHURCHES:—Roman Catholic, Anglican, Presbyterian, Methodist, Baptist, German Baptist, Lutheran, Salvation Army.

TRAIN SERVICE:—Leaves for Strathcona 7.45 and 11.30. Arrives from Strathcona 9.15 and 11.50.

LOCAL

—Train on time.

—Frogs: Fair and cold; warmer Sunday.

—A slight flurry of snow occurred this morning.

—The name of the post office at Bradbourne, Alta., has been changed to Dog Pound.

—The anniversary services of the Clover Bar Methodist Church will be held to-morrow, Rev. C. H. Huettis will be the preacher of the day.

—A concert will be held in the Belmont school house on Wednesday evening next, not Tuesday evening, as previously reported.

—Mr. T. R. Earle of Toronto, superintendent of agencies for the Mutual Life of Canada, spent the last couple of days with the manager for Northern Alberta, Mr. C. Ross Palmer, Edmonton.

—Strathcona Plasterer:—Immigration has commenced for the season. Four cars of settlers effects arrived this week from Indian Territory accompanied by their proprietors and numbering in all twenty-seven souls, some families also arrived this week from Texas and Nebraska.

—Strathcona Plasterer:—Postmaster Ritchie of Vegreville has been spending a few days in Strathcona. He says the C. N. R. contractors are storing a large quantity of oats and other supplies at Vegreville preparatory to active operations in the early spring. Most of the oats are being hauled from Star. Fifty cents per bushel is paid for them at Vegreville.

—Fort Saskatchewan Reporter:—H. Walton, manager of Cushing Bros. lumber yard, now left for Calgary on Monday, Mr. Walton has been transferred to the branch there, and will be greatly missed around the Fort as no one of our best all-around citizens. J. J. Libbey succeeds him.

—Fort Saskatchewan Reporter:—It is reported that the members of the new N. W. M. P. division "N" with headquarters at St. John will leave tomorrow for the far North. This will make quite a change here, as our townsmen have become quite accustomed to the rumbling wagons drawn by four-horse teams that were being broken in for the long journey.

—F. C. Marker came up from Calgary last night in connection with the proposal to establish a cemetery at Clover Bar. Arrangements have been under way for some time by the residents of the district and it is understood the necessary capital can be secured at once. An effort is being made to secure the engine and boiler formerly used in the crematory at the south end of the bridge.

—Canadian Gazette:—If Canadian papers are to be believed, the famous force, the Royal North West Mounted Police, is losing its glamour. In golden days before the advent of the steam engine on the prairies, when there was more solitude, and almost every journey had to be performed on horseback, adventurous young men sought the force in large numbers, and it was impossible to enlist all who offered. But settlers are entering the Northwest in thousands, and the country is being rapidly populated. Life in the force is not so attractive to adventurous spirits as it used to be. Moreover, the times have become prosperous, and pay in other occupations is better. Of some 300 men enlisted in 1880, scarcely 70 remain in the police.

PERSONAL

P. Blais of Fort Saskatchewan is in the city.

Mrs. and Miss Oliver leave for the East next week.

Ald. Chas. May leaves for the East early next week.

C. Marker came up from Calgary last night.

A. A. Jones returned from the south last night.

Mr. E. O'Brien of Wetaskiwin came up on last night's train.

Mr. D. Wilson of Nainoi is in the city to-day. He reports that while on the way in, he saw an enterprising goather which had apparently concluded winter was over, and came out for the summer.

COMMITTEE NOT TO BLAME

To the Editor of the Bulletin:

Dear Sir:—

I notice in your columns of yesterday that you claim to have been informed by the Secretary-Treasurer of the city to the effect that the finance committee had instructed that official to prevent the publication of that committee's report and the reply of the secretary-treasurer, all in connection with the auditor's report.

As a member of the finance committee, I wish to say that the secretary-treasurer never received any such instructions from the finance committee that I ever heard of, and I have attended every meeting. If he has attempted to interfere in any way with the press in the matter of publication of these reports, he has done so entirely on his own responsibility. I know of no reason, and cannot understand what reason any other member of the committee could have, why these or any other reports of the committee, or any other reports on proceedings of committees of the council should not be published if the press desire.

Yours truly,

J. R. ROYDE.

Edmonton, March 18th, 1906.

ST. PATRICK'S DAY.

If they'd been hanging men and women here for wearin' of the green yesterday the city would have been depopulated to-day. The cosmopolitan disposition of the West showed in the honors done the national day of Ireland by those of all nationalities, creeds and colors. The green badge was not infallibly an indication that the wearer was an Irishman, but merely that he either was such or wished to show a friendliness toward the celebration or the celebrators. Green flags were every where and everyone wore a ribbon of the same hue.

The merchants of both towns had consented to close for the afternoon and the half day was generally observed as a half holiday. Early in the afternoon the Sons of Erin from the two towns met at Riverside park and headed by the Strathcona band drove through the principal streets of the city, afterward driving around Strathcona. There were about thirty carriages in the procession, all gaily bedecked with green ribbons. The sidewalks along Jasper avenue during the parade were lined with throngs of pedestrians. After the drive the local participants returned to the city where the celebration was concluded in the evening by a banquet at the Criterion. The Strathcona Irishmen also dined in Ross Hall in the evening.
